

NRG 420 POWER JET

 **BAVELLONI**

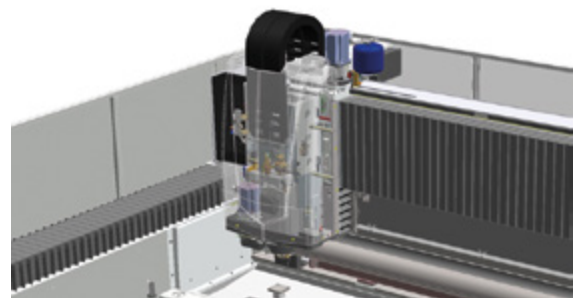

OPEN A NEW DOOR

New door with fully automatic opening and closing
(patent pending).

HIGHLIGHTS

- New Bavelloni spindle: developed and assembled 100% in-house.
- Automatic door: new concept up and down movement.
- PowerJet: unrivalled performances.
- PAV: swift and easy change of format.

TECHNICAL DETAILS

- Maximum workable size: 4200x2300 mm.
- The patented device PowerJet, rotating from 0° to 360° in a continuous way, allows to direct and keep the water jets for the tools refrigeration exactly on the contact point with the glass profile. Longer life of the tools, increased working speed, minimum set up times.
- The PAV patented system, unique in today's market, allows to position the suction cups and the centering devices in a completely automatic way on the work table. Set up times decrease by 30-40% compared to the standard system.
